
This version is available at https://strathprints.strath.ac.uk/42640/

Strathprints is designed to allow users to access the research output of the University of Strathclyde. Unless otherwise explicitly stated on the manuscript, Copyright © and Moral Rights for the papers on this site are retained by the individual authors and/or other copyright owners. Please check the manuscript for details of any other licences that may have been applied. You may not engage in further distribution of the material for any profitmaking activities or any commercial gain. You may freely distribute both the url (https://strathprints.strath.ac.uk/) and the content of this paper for research or private study, educational, or not-for-profit purposes without prior permission or charge.

Any correspondence concerning this service should be sent to the Strathprints administrator: strathprints@strath.ac.uk

The Strathprints institutional repository (https://strathprints.strath.ac.uk) is a digital archive of University of Strathclyde research outputs. It has been developed to disseminate open access research outputs, expose data about those outputs, and enable the management and persistent access to Strathclyde's intellectual output.
UK User Seminar, 6th November 2012
Donington Park
Castle Donington

Programme

09:00 – 09:20 Registration and Coffee

09:20 – 09:30 Welcome – Stephane DeBacker, TA Instruments

09:30 – 10:10 Mark Phipps, TA Instruments
An Overview of Recent Developments at TA Instruments.

10:10 – 10:50 Olivia Smith, Cytec Engineered Materials
Development and Analysis of Carbon Composites.

10:50 – 11:10 Refreshment Break and Posters

11:10 – 11:50 James Thomason, University of Strathclyde
A Novel Combination of Micromechanical Testing And Thermal Analysis to Investigate the Temperature Dependence of Interfacial Adhesion in Fibre Reinforced Polymer Composites.

11:50 – 12:30 Heinz Baehr, BÄHR Thermoanalyse / TA Instruments
Dilatometers for Operation under Various Atmospheres and Optical Dilatometry.

12:30 – 13:30 Lunch and Posters

13:30 – 14:10 Peter Hodder, TA Instruments
New Technologies for Rheological Characterisation.

14:10 – 14:50 Nicholas Hawkins, University of Oxford
Turning up the Heat: Methods for Analysing Protein Denaturation.

14:50 – 15:10 Refreshment Break and Posters

15:10 – 15:50 Tom Hancock, BP Global Lubricants Ltd
Thermal Analysis in the Development of Advanced Engine Oils.

15:50 – 16:30 Phil Davies, TA Instruments
Approaches for the Measurement of Thermal Conductivity and Thermal Diffusivity of Materials.

16:30 Closing Remarks
