## List of stakeholders for the DHI

1. **The Alliance** - 3<sup>rd</sup> sector, citizen focused
2. **BCS Health Scotland** – British Computer Society Health Scotland, a multi-professional group that aims to promote the development and use of Health Informatics in Scotland.
3. **Business Gateway** – Business advisor service – DHI presented to the Glasgow staff and a number of enquiries are now coming in.
4. **Catapults** – Catapults are UK wide. There is a precision medicine catapult which has partial base in Scotland (SMS-IC CEO, once appointed is going to have to dedicate 1 day a week approx.. to this role). Space Catapult – we are involved with the space catapult who are based at Strathclyde and Inverness, they have a remit to look at using data from Space to benefit healthcare. Digital Catapult – They had been looking at opening a Scottish Digital Catapult, however I don't think this is progressing at this stage. However, the Digital Catapult does have a 3 bases in England and also has a dedicated health stream.
5. **Civtech** – Open Innovation Challenge run by the Scottish Government – recent round just closed. Again we are working with them
6. **Dallas** – Delivering Assisted Living At Scale
7. **Digital Scotland** (Scotland's Digital futures, Government org)
8. **eHealth** in Govt and boards – majority of departments are involved at some level
9. **Enterprise Europe Network** – based within Scottish Enterprise – can provide support to SMEs and researchers to access European Funding for example identifying opportunities, identifying partners, helping innovators become partners, helping with completion of funding bids etc etc
10. **Entrepreneurial Spark** - <http://www.entrepreneurial-spark.com/> Nationwide, but do do work in Scotland as incubator/accelerator. Very few Accelerators in Scotland, none Scotland-based.
11. **Farr-institute for health informatics research**
12. **Health Care Improvement Scotland** – Encompasses Scottish Health Technologies Group (SHTG) and also the Health Innovation Assessment Portal (HIAP) where health technologies are assessed by a panel which includes SHIL, SHTG and Others. HIP also have the ihub which show the priorities for the Government and NHS for health and care in Scotland.
13. **HIAP** - Health Innovation Assessment Portal (offered by NHS Scotland for innovators and assessors; aims to encourage prospective providers of new and / or innovative products and solutions to put them forward.)
14. **HIS – Health Improvement Scotland**

15. **ihub** – Supporting health and social care integration in Scotland; sits under HIS-umbrella.
16. **Incubators/Accelerators** – Digital Refer gives an overview of some of these, if you use the spreadsheet attached and select the region as Scotland. One note on it, Alba is no longer operating, Kevin has struck out on his own.
17. **Innovation Centres**
  - a. DHI
  - b. Censis
  - c. Data Lab
  - d. Stratified Medicine
  - e. Construction Scotland Innovation Centre
18. **Innovation Champions within the NHS Scotland**
19. **Innovation and Knowledge Centres**
20. **Innovate UK** – Massive innovation funder for research and businesses
21. **Interface** – We have a good working relationship with Interface, we have regular meetings and they also sit on the approval panel. Interface are funded by SFC and provide a link between industry and academia.
22. **JIT – Joint Improvement Team** – strategic improvement partnerships between the Scottish Government, NHSScotland, COSLA, the third and independent housing sector.
23. **KTN – Knowledge Transfer Network** – network in a number of difference disciplines
24. **KTP – Knowledge Transfer Partnerships** – place academics and business together for the mutual benefit of both and fund placements.
25. **Local Enterprise partnerships**
26. **MacMillan Cancer Care**
27. **NRS** – NHS Research Scotland – Cover a range of research in the NHS, and also have an industry liaison Manager who deals with relationship between industry and NHS researchers, including the likes of developing Scotland as a Multi-site for Clinical trials for big pharma such as Roche etc.
28. **NES** - NHS Education Scotland
29. **NHS Scotland**
30. **NHS24**
31. **Saltaire foundation**
32. **SBRI – funded by Innovate UK.** Challenges run UK wide, but have specific regional/topic

challenge. There are a number of challenges happening in Scotland supported by Scottish Government and Scottish Enterprise. Current one is Diabetes which we are involved in, next one will be in Dermatology

**33. SIE – Scottish Institute of Enterprise**

**34. SCTT – Scottish Centre for Telehealth and Telecare**

**35. Scottish Cities Alliance** – Partnership between the Scottish Cities which has European funding. Amongst the other work that they are doing to make Scottish Cities smart cities is a Smart and Health Living Pathfinder/workstream which aims to: “work together to establish a nationwide test-bed for innovation in health and wellbieng, whilst generating data led insights on the links between health, economic growth and productivity” “The pathfinder will focus on the following 2 areas: Accelerating the development and deployment of products and services that support a more holistic management of health and wellbieng across Scotland’s cities, and, Ingelligent use of data to generate insights on the interdependencies between health and the economy. This includes links to employment, low pay and how infrastructure and services can be delivered in a way that promote wellbieng.” This means that they will be promoting innovation in this area.

**36. Scottish Enterprise and Highlands and Islands Enterprise** – there are a number of elements to both agencies that will be relevant here. For example:

- a. High Growth Team – also the high growth programme run in collaboration with the Scottish Government
  - i. Sector Teams
  - ii. Business advisors and Innovation specialists
  - iii. Account managing companies
  - iv. Funding – various funding available, i.e. PoC funding etc
- b. Open Innovation Support inc SBRI and other work

**37. Scottish Universities** – the universities all have Research and Innovation departments and also business development departments too.

**38. SDI – Scottish Development International** – experts in international business and innovation.

**39. SHIL Scottish Health Innovations Limited** – [www.shil.co.uk](http://www.shil.co.uk) – we have a working relationship with SHIL at various levels, they take innovations from within the NHS

**40. SIE – Scottish Institute for Enterprise** – we have a good working relationship with SIE. They deal with student enterprise and innovation <http://www.sie.ac.uk/>

#### **41. TEC – Technology Enhanced Care Programme (Joint improvement team)**

##### **1. Funding- These are just some examples...**

- a. There are various funding streams out there for Innovation, for example:
- b. Research Councils – i.e. EPSRC, MRC etc etc
- c. NIHR – Health research, including Health Technology Assessment Funding
- d. Innovate UK
- e. H2020
- f. Angel investor networks
- g. Business Incubators (e.g. Digital Enterprise Glasgow, Creative Clyde Incubation Centre)
- h. Venture Capital Funds (e.g. Pentech Ventures in Edinburgh; Scottish Equity partners)
